

Improve Productivity and Workplace Safety

In today's world, effective managers recognise the importance of improving productivity whilst reducing the risk of work place injury.

Our ergonomic assessment packages with our unique **Workplace Health Report**® can assist your organisation by:

- Improving productivity and profitability;
- Improving employee morale;
- Reducing the risk of accidents and injuries;
- Reducing workers compensation premiums and
- Demonstrating your compliance with OH&S obligations.

Our goal is to find creative solutions: matching your organisation's workload with the physical environment and individual characteristics of your workforce to provide a safer, more productive workplace.

THE ERGONOMIC PROCESS

After a meeting with management to understand the needs of your business, we will assess the workstations nominated for review with minimum disruption to workflow.

Each workstation is reviewed and configured to improve productivity and reduce the risk of workplace injury.

In most cases, additional equipment is not required. When existing equipment is not suitable, we will advise management and provide recommendations to fit your budget and corporate image.

REPORTING TO MANAGEMENT AND WORKERS

The unique **Workplace Health Report**[®] provided by **WorkAble Solutions** is a tangible expression of management's concern for their workforce.

Feedback to individual workers includes a photo of the staff member at their properly configured workplace with clear prompts to assist them comply with safe work practices.

A separate report informs management of factors affecting safety and efficiency with reference to Australian Standards.

In addition, each staff member receives a series of workstation based exercises to help relieve workplace fatigue.

The Workplace Health Report[®] for Management*

- Physical environment
- Equipment suitability
- Work practices

*referenced to Australian Standards
